

FIRE LIFE SAFETY

YOUR SINGLE SOURCE FOR TOTAL PROTECTION

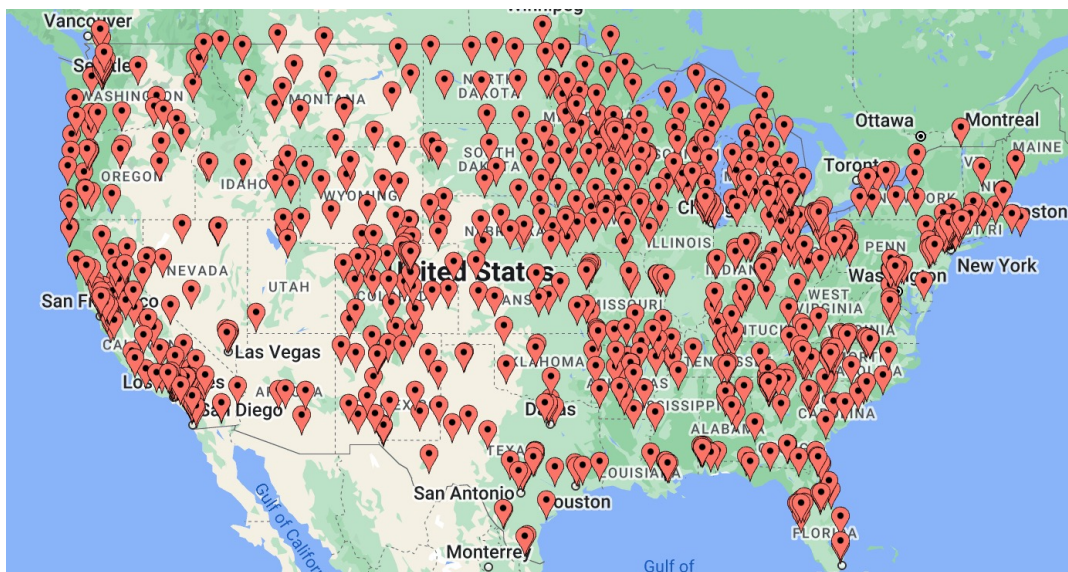

The significance of fire protection cannot be overstated. At DMG, our process prioritizes compliance, expertise and dedication to quality products and service.

Our team of in-house experts includes NICET-certified individuals and certified fire marshals with more than 30 years of experience in fire and life safety (FLS) and project management. No matter what you need — testing, inspections, repairs, technology upgrades, staff training and more — our team will build a customized plan to safeguard your facilities and give you peace of mind.

Our robust, nationwide provider network means you have FLS coverage no matter where your facilities are located. And our team — our SMEs and National Account and Field members — specializes in work verification and provider vetting and management.

We protect your customers, employees and property. Let us worry about FLS so you can focus on your ultimate goal: running a successful business.

NATIONWIDE COVERAGE

 FLS customer properties serviced in 2022
